---

Product & UX Leader who builds teams and experiences that scale. At Joyn, supported platform growth from 1M to 8M monthly users, improved USAT by 20%+, and scaled UX organization from 6 to 25 specialists. Led JOYN's accessibility programme across 5 platforms ahead of the EAA.

15+ years driving growth across live and ondemand streaming, eCommerce, location based services, SaaS and education. Specialized in accessibility, optimizing conversion funnels, removing journey friction and aligning UX strategy with business outcomes. Combines strategic product thinking with hands-on ux leadership—building empowered teams that deliver data-informed, user centred and inclusive experiences.

Expert in post-merger integrations, team scaling and accessibility-first product development.

Core Skills: Product & UX Leadership • UX Strategy • Product Discovery & Delivery • AI supported Design & OPs · Team & People Development • UX Operations & Budget • Customer Journey Optimization • UX Research & Data-Informed Decision Making • Cross-Functional Collaboration • Stakeholder & Program Management • Design Systems • Accessibility (A11y) • Facilitation & Workshop Leadership

EXPERIENCE

VP Product Design & UX Research | Joyn / Seven.One Entertainment Group / Pro7Sat1
Berlin/Munich, Germany | 2021 – 2025

Led UX Design and Research for one of Germany's largest streaming platforms, driving user growth, engagement, and content discovery across web, mobile, and TV.

- Scaled UX organization from 6 to 25 specialists across design and research, establishing 4 experience squads (web, mobile, TV, research) following post-merger integration of Joyn and Seven.One Entertainment Group
- Supported platform growth from 1M to 8M monthly active users by optimizing onboarding, discovery and engagement funnels across all device types
- Improved user satisfaction by 20%+ through data-informed journey optimization and continuous product discovery iteration (improved search, home, onboarding and authentication, live UX)
- Initiated and led JOYN's accessibility programme ahead of the EAA: WCAG 2.2 AA audits on 5 platforms (203 findings), a cross-functional task force and a prioritised roadmap
- Improved Live TV engagement by 30%+ on TV platforms by defining product vision and UX strategy aligned with business growth objectives
- Integrated SevenOne's interactive TV features into the JOYN apps, enabling 5 interactive primetime shows and the retirement of the standalone JOYN.ME app

Creative / Team Lead UX | Cornelsen Publishing Group, Berlin, Germany | 2018 – 2021

Led UX for Cornelsen's digital ecosystem including eCommerce platform and learning products, focusing on conversion optimization and content discovery.

- Led and finished redesign of Cornelsen.de integrating multiple service websites into unified web experience with new design system.
- Improved product discovery and reduced purchase friction for flagship product "Unterrichtsmanager Plus", sunsetted scook.de and helped to release a new, interactive learning platform

- Established user journey management and service design practices identifying and optimizing key conversion points including teacher registration and authentication flows.
- Built and mentored UX team, embedding user research and monthly testing routines into product development process.
- Partnered with Product, Marketing, and Sales during pandemic as taskforce member delivering free education access to teachers and students during lockdown.

UX Lead | Ui/deation GmbH (waipu.tv / Exaring), Munich, Germany | 2014 – 2018

Led UX for waipu.tv multi-platform IPTV products across web, mobile, TV, and voice (Alexa), onsite and embedded at the client Exaring GmbH, focusing on user acquisition, engagement, and retention.

- Led UX design for all platforms (web, mobile, TV, Alexa) managing team of 5 senior UI designers
- Designed and optimized content discovery, navigation, and subscription experiences improving findability and personalization of live TV consumption
- Introduced rapid experimentation cycles including design sprints, persona workshops, and quarterly user feedback sessions
- Collaborated with Product, Marketing, and Engineering aligning roadmaps with user needs and business priorities.

UX Design Team Lead / Principal UX Designer / Senior UX Designer | OVI/Nokia Maps/HERE Berlin / London / Helsinki / Boston | 2008 – 2014

Earlier experience leading UX for global location-based services and mapping products, designing navigation, search and real-time location sensing experiences across web and mobile platforms.
